PROFILE

Highly motivated Computer Science student entering my final year, specializing in full-stack web and mobile development. Proven ability to build functional, real-world applications using modern frameworks like React, Node.js, and Flutter. Experienced in Agile methodologies, technical problem-solving, and leading student development teams. Seeking a software engineering internship to apply my technical skills and contribute to impactful projects.

WORK EXPERIENCE

Official PFE Management Application

Scrum Master & Full Stack Developer

- Selected from a pool of 200 students to develop the university's official web application for managing final year graduation projects (PFE)
- Led a development team of four peers using Agile/Scrum methodologies to ensure timely delivery and efficient task distribution.

Karate Grading Mobile Application

Mobile Developer

- Designed and developed a comprehensive digital grading assessment app utilizing Flutter and Firebase.
- Deployed the application for real-world use, currently actively utilized by a local martial arts coach to manage assessments for 36 students.

VYBZ.TN
